COVID-19 Home Testing

We are pleased to say that in part due to your lobbying, the Government has now started providing nurseries & Pre-schools with lateral flow home testing kits. We as a team are now testing twice a week. We feel regular testing is a positive step as we move closer to coming out of lockdown and adapting to living alongside COVID.

Fee Increase - Thank You

We normally revise our fee's in April each year, however due to everything that has happened and as a thank you for supporting us during COVID we have decided to delay this year's increase until August 2021. The hourly rate will then increase to £6.10 p/hour, we will then revert to April for future increases.

Our New Website!

Please check out our new website launched last month. It took a while with lockdowns etc. but the number of enquiries we are receiving from it is amazing.

www.Sunshineexmouth.co.uk

Sunshine Spaces in September

We have some spaces available from September for 3 & 4 year olds so if you know of anyone looking please point them in our direction. Also if you are looking to increase your child's hours or their funding starts then please speak to Andrea as soon as possible so as not to miss out.

Any Greenfingers Out There?

We're hoping to start sowing seeds soon to plant on in our allotment. If anyone has any spare seeds, seedtrays or suggest anything we should give a go at growing please let us know. Also don't forget wellies and coats need to be brought in every day thank you
